

MOUNT FIELD NATIONAL PARK

AN EXCITING WALK IN A UNIQUELY BEAUTIFUL AND DIVERSE ENVIRONMENT

Mount Field National Park is one of Tasmania's oldest national parks, established in 1916 along with Freycinet NP, and is one of its most popular. This is partly because of its proximity to Hobart (94 km) but also because of its wide variety of flora, dramatic glaciated landforms and ready accessibility to most areas of the park.

This walk features examples of all of the park's attractions including sub-alpine forests, stands of ancient pencil pines, the remarkable cushion plants, glacial moraines and block streams, alpine moorlands, exquisite small tarns and lakes, monolithic dolerite boulder fields, dramatic cliffs and peaks, and stunning views. It provides a wonderful introduction to Tasmania's alpine regions and its flora and topography.

The walk is also characterised by the park's multiple "personalities" – it starts in a sub-alpine forest along moraine-dammed lakes, and finishes with an exhilarating high altitude ridge-top traverse of the Rodway Range among the ice-shattered monolithic dolerite boulders of the "Lions Den" before descending the botanic "riot" of the Urquart Track to our finish.

T1 | Well defined and wide tracks on easy to moderate terrain, in slightly modified natural environments. You will require a modest level of fitness. Recommended for beginners.

T2 | Narrower but distinct tracks which can be muddy in some places, in pristine natural environments. Facilities are minimal and you will encounter few other walkers. These moderate tours require a reasonable level of fitness.

T3 | You will experience marked but often-indistinct tracks, in very remote and wild areas. These challenging walks need a high level of fitness and some hiking experience.

T4 | Tracks are often faint or unmarked in remote and craggy natural areas not included in our schedule, however we will guide selected parties on these tours on request
